11:00am–12:30pm      Communion In God Presence – "Receiving your Enlightened Connection as a Soul to Mother Earth – Grounding your God Presence's Love on Earth"

Each new God Presence connection or new "Enlightened Connection" that is established, opens a unique pathway in your consciousness between a series of chakras, energy fields and portals of your light body, and within specific meridians and organs within your physical body. During the God Presence Retreat you will be opening 6 new energy circuitries or pathways in your consciousness to allow the enlightened frequencies of your God Presence to anchor and activate your light bodies and soul to be more enlightened in your daily life as a soul committed to the spiritual path.

"Receiving your Enlightened Connection as a Soul to Mother Earth," offers the activation and enlightening of the first new pathway which opens your first level of soul connection to your God Presence. This pathway begins in your heart and is expanded by enlightening the energy connection of your soul and your angelic consciousness - via your earth star chakra, hara chakra, heart chakra – via your angelic body (or energy fields) to your angelic chakras and into the physical body via the heart, lung and spleen meridians, and heart, lungs and spleen as organs. As you receive the attunements for this enlightenment pathway, you will be graced with wisdom teachings and universal transmissions of love from your God Presence and the Enlightened Masters, that accompany this activation. An amazing grace is offered to you by the Enlightened Masters, specifically in relation to assisting your soul to move forward in a loving way on your path. is separate to one's soul and therefore an authority to one's life and soul journey. In this session, all will be guided to shift unconscious belief systems about themselves and their God Presence and be shown how to take the steps to access inwardly, the love and power of their God Presence each day. All will be guided to break many ancient agreements that bind a soul on their soul journey, and creates them to either feel weighted down or burdened by their life contracts, relationships, and commitments in life, or limited in the expression, movement forward or expansion of themselves on their soul journey.
